SUBJECT: Changes from Draft Permit to Final Permit

The following changes were made from the Draft Permit to the Final Permit

1. Administrative Changes Applicable to Entire Permit:

- a. Added the effective date of the Permit in the header of Permit and removed "Draft" in the header.
- b. Corrected typographical errors throughout the Permit.
- c. Corrected formatting.

2. Specific Changes from the Draft to Final Permit:

- a. Inserted effective date as January 26, 2009 and expiration date as January 25, 2019 on cover page of Permit.
- b. Removed "Draft" from cover page and page 2 of Permit.
- c. Changed signatory on cover page from "Ray Leclerc, P.E." to "Peter Bailey, P.G." due to DTSC internal reorganization.
- d. The total number of pages in the cover page was changed in order to match the number of pages in the permit.
- e. The page numbers in the index were corrected.
- f. Volume of storage tanks and maximum permitted capacity of tank storage in page 4 were revised to reflect 24,000; 23,000; and 47,000 gallons.
- g. The activity description on page 9 under Activity Description was revised to include Oily debris.

- h. "Special Condition" on page 11 was changed to "Unit-Specific Special Conditions" per response to comments.
- i. Special Condition 16 on page 20 was edited to read: "For the purpose of calculating the permitted maximum capacity limitations for storage and for secondary containment, all containers in the authorized units are assumed to be full, and all hazardous waste and non-hazardous waste that is stored or located in an authorized unit shall be included in the calculation for that unit, including any hazardous waste that is covered by the transfer facility exemption under California Code of Regulations, title 22, section 66263.18."
- j. Typographical errors in Table 1 on page 23 were corrected to reflect the correct non-RCRA hazardous waste to be stored in the tanks as well as the volumes allowed for each tank.
